

BerryMe

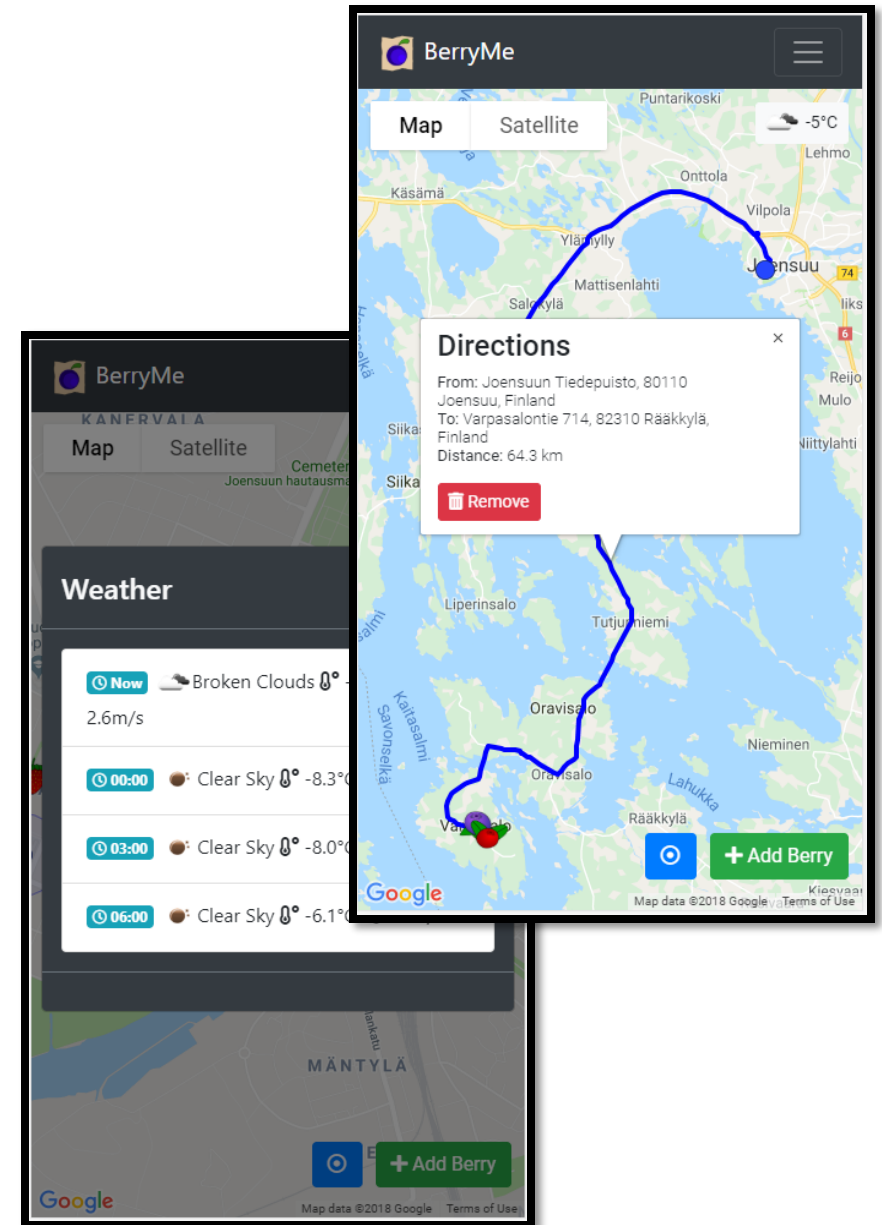

Joonas Pussinen, Antti Neuvonen

Keep track of your favorite berry places

Features

- Add and rate berry locations
- Databases can be imported and exported
- Show nearby users
- Optimal route (TSP) and directions
- Weather forecast
- Achievements
- Works on desktop and mobile

What we learned

- (More) Web development
 - HTML5 features: localStorage, geolocation
- User interface design
 - More Bootstrap
 - Mobile and desktop
- Server-side APIs
 - Hosting on Heroku, OSRM, OpenWeatherMap, Mopsi
